EDUCATION

Florida State University — Tallahassee, FL

Bachelor of Science in Computer Science, Minor in Mathematics

Expected Graduation: **May 2027**

TECHNICAL SKILLS

Languages: C++, C#, Java, Python, SQL, JavaScript

Frameworks: ASP.NET Core, .NET MAUI, Entity Framework Core, React, Django

Databases: PostgreSQL, SQLite, Supabase, Relational Database Design, SQL Queries

Software Development: REST APIs, Object-Oriented Programming, Software Architecture, Debugging, Troubleshooting, CRUD Operations, ETL Workflows, Git

Tools: Visual Studio, VS Code, Jupyter Notebook, Linux/Unix,

PROJECTS

Learning Management System

- Developed a full-stack learning management system using .NET MAUI, ASP.NET Core Web API, Entity Framework Core, and PostgreSQL.
- Designed relational database models and implemented CRUD operations through RESTful API endpoints.
- Built MVVM application architecture for managing users, courses, modules, assignments, and submissions.
- Debugged backend issues involving Entity Framework relationships, foreign keys, database migrations, and API data retrieval.

AI Marketing Agent Platform

- Developed a full-stack marketing management platform using React, ASP.NET Core, and PostgreSQL.
- Designed REST API endpoints and relational database structures for managing products, campaigns, and generated content.
- Implemented backend services and integrated external APIs to support AI-powered content generation workflows.
- Used Entity Framework Core and PostgreSQL to maintain application data integrity and manage database operations.

Netflix Data Analytics Web Application

- Developed a Django web application to analyze and visualize user behavior data using Python, SQL, and PostgreSQL.
- Built database models using Django ORM and created data processing workflows using Pandas.
- Developed SQL queries and analytics dashboards to identify user trends and behavioral insights.

EXPERIENCE

Digitization Specialist

The Crowley Company

May 2021 - August 2022

Ellicott City, MD

- Processed and validated large volumes of digital records while maintaining accuracy and consistency.
- Maintained detailed workflow documentation and performed quality assurance checks.
